Here is an interesting project. Live in, renovate, develop or all three?

This appealing centrally located bungalow sits on a lovely corner block of 828m² the backyard of which screams potential having side street access.

The bungalow itself has good size rooms with a formal lounge room, main bedroom and second bedroom and a further sunny study or bedroom at the rear.

There is a modernised central bathroom and a large kitchen with gas cooking, a sunroom porch at the back door. The home has evaporative cooling.

A double length carport and a two sheds will take care of your vehicles, boat etc.
